

I have been very pleased with the current law regarding unsolicited phone calls from telemarketers as we currently have it in Indiana. If the companies wish to contact me I feel they can advertise and let me decide that way and not bother me with unwanted calls at inconvenient times. The phone in my house is for my use and pleasure and not a way for people to market their goods/services to me. I know I am not alone in the way I feel in this matter.  
Thank You and please leave the law in place!
